

SPECIFICATION SHEET

CAB-001 Control Cabin

DESCRIPTION:

Oceanteam Cable Solutions builds and owns a large pool of cable handling equipment including auxiliary equipment such as control cabins, winches, chutes and roller blocks.

This control cabin is a containerized 10ft cabin which can be used as the base of operations for controlling any of Oceanteam's equipment such as carousels, tensioners, BCE, loading towers etc. This container can also be stacked above other containers to gain elevation as per operational requirements.

Equipped with creature comforts such as air conditioning and furnishings, the control cabin is the perfect complement to Oceanteam's equipment and allows for a comfortable environment for the operators.

GENERAL SPECIFICATIONS:

Type: 10ft container
Footprint (l x b x h): 2.99m x 2.44m x 2.60m
Dry Weight: 1.5 mT

Air Conditioning: Yes, Mobile Unit
Other Features: Fully Insulated, Furnished with blinds
